Welcome to Finance America, Inc. Help is here!

At Finance America, Inc., we realize all too well that these are challenging times for homeowners struggling to make their monthly home loan payments. And, as the owner of Finance America, I also realize there are millions in the United States who are living in fear, in dread of losing their homes because of the astronomical payments on their home loans.

Hello, I'm Ted Johnson, owner of Finance America, and I am also aware that keeping up the monthly payments is getting harder and harder. Many who are reading this message will be unable to make the monthly payments on their mortgages, but help *is* on the way for you. Finance America has many options for you to get out from under your debt load. Finance America is a small, dynamic company that is not hampered by a large administrative overhead, thus, our superb Customer Service personnel are much more flexible in finding a solution to your money problem.

The reason we at Finance America successfully help our customers is that we just don't irresponsibly dump loans on our clients – hoping things will work out. Instead, at Finance America, each of our clients is assigned a Professional Loan Officer, who works with them to determine the loan choices that are available, at a manageable interest rate, and at the lowest possible cost. Because we are a small, dynamic enterprise, our low overhead means savings to our customers. Additionally, by your working with one of our Professional Loan Officers, we strive to keep you out of further financial trouble, while making sure you get the kind of loan you need, all of which is accomplished in a stress-free atmosphere.

I sincerely believe that an informed client will become a wise manager of his or her money. Therefore, I've seen to it that our website has two priority sections: Lexicon for the Global Loans, and our Home Loan Pre-Qualifying Page – a page that presents a few scenarios and different loans – and can assist you when talking with us to find your loan. So, [contact me](#) now, either by clicking [here](#), or call our toll-free number 888-900-9993, and one of our Finance America Professional Loan Officers will assist you in finding a solution for your home mortgage.

Sincerely,
Ted Johnson, Owner, Finance America

Ps. In all truthfulness, your satisfaction is more important to me than my commission. We at Finance America are here to help you. Click [here](#) and let's begin finding a solution to your money problem right now!
